

## **Partner With WDU**

Workforce Development Unit (WDU) partners with school districts, colleges, adult education programs, and employers to close opportunity gaps and build sustainable education-to-career pathways. We bring over 30 years of experience designing systems that uplift learners of all ages—especially in communities historically underserved by traditional structures.

Whether you're looking to strengthen your workforce pipeline, launch an apprenticeship program, or improve academic alignment across systems, WDU offers hands-on expertise, proven results, and deep community insight.

### **Services by Partner Type:**

#### **For School Districts**

- Early educator pipeline design
- Transcript review & permit planning
- Dual enrollment & RSI alignment
- Academic mentorship & case management
- Professional development for TK–12 support staff

#### **For Adult Education Programs**
